IN THE CLAIMS:

This listing of claims will replace all prior versions, and listing of claims, in the Application.

Listing of claims:

1.   (Currently amended) A computer implemented method of highlighting Web pages arranged in categories on a server comprising ~~the steps of~~:

using a keyword or a phrase to search Web pages bookmarked in two or more sub-folders;

creating a sub-folder into which all Web pages searched that contain the keyword or phrase are to be stored;

storing bookmarks to all the Web pages that contain the keyword or phrase into the created sub-folder;

comparing the bookmarked Web pages in the created sub-folder to ~~a bookmark folder with~~ the Web pages in the categories; and

highlighting all the Web pages in the categories that are the same as the bookmarked Web pages.

2.   (Previously presented) The computer implemented method of Claim 1 wherein the bookmark folder is on a client.

3.   (Previously presented) The computer implemented method of Claim 1 wherein the bookmark folder is on a server.

AUS920011027US1

4. (Currently amended) A computer program product on a computer readable medium for highlighting Web pages arranged in categories on a server comprising:

    code means for using a keyword or a phrase to search Web pages bookmarked in two or more sub-folders;

    code means for creating a sub-folder into which all Web pages searched that contain the keyword or phrase are to be stored;

    code means for storing bookmarks to all the Web pages that contain the keyword or phrase into the created sub-folder;

    code means for comparing the bookmarked Web pages in the created sub-folder to a bookmark folder with the Web pages in the categories; and

    code means for highlighting all the Web pages in the categories that are the same as the bookmarked Web pages.

5. (Previously presented) The computer program product of Claim 4 wherein the bookmark folder is on a client.

6. (Previously presented) The computer program product of Claim 4 wherein the bookmark folder is on a server.

7. (Currently amended) A computer implemented apparatus for highlighting Web pages arranged in categories on a server comprising:

    means for using a keyword or a phrase to search Web pages bookmarked in two or more sub-folders;

AUS920011027US1

<u>means for creating a sub-folder into which all Web pages searched that</u> <u>contain the keyword or phrase are to be stored;</u>

<u>means for storing bookmarks to all the Web pages that contain the</u> <u>keyword or phrase into the created sub-folder;</u>

means for comparing <u>the</u> bookmarked Web pages in <u>the created sub-</u><u>folder to</u> ~~a bookmark folder with~~ the Web pages in the categories; and

means for highlighting all the Web pages in the categories that are the same as the bookmarked Web pages.

8.   (Previously presented) The computer implemented apparatus of Claim 7 wherein the bookmark folder is on a client.

9.   (Previously presented) The computer implemented apparatus of Claim 7 wherein the bookmark folder is on a server.

10.   (Currently amended) A computer system for highlighting Web pages arranged in categories on a server comprising:

at least one memory device for storing code data; and

at least one processor for processing the code data to <u>use a keyword or a</u> <u>phrase to search Web pages bookmarked in two or more sub-folders, to</u> <u>create a sub-folder into which all Web pages searched that contain the</u> <u>keyword or phrase are to be stored, to store bookmarks to all the Web</u> <u>pages that contain the keyword or phrase into the created sub-folder, to</u> compare <u>the</u> bookmarked Web pages in <u>the created sub-folder to</u> ~~a~~

AUS920011027US1

~~bookmark folder with~~ the Web pages in the categories and to highlight all the Web pages in the categories that are the same as the bookmarked Web pages.

11.   (Previously presented) The computer system of Claim 10 wherein the bookmark folder is on a client.

12.   (Previously presented) The computer system of Claim 10 wherein the bookmark folder is on a server.

13.   (Currently amended) A computer implemented method of highlighting Web pages arranged in categories on a server comprising ~~the steps of~~:

using a keyword or a phrase to search Web pages bookmarked in two or more sub-folders;

creating a sub-folder into which all Web pages searched that contain the keyword or phrase are to be stored;

storing bookmarks to all the Web pages that contain the keyword or phrase into the created sub-folder

accessing a Web page on the server on which Web pages arranged in categories are displayed;

retrieving Uniform Resource locators (URLs) of all Web pages in the created sub-folder ~~a bookmark folder~~, the created sub-folder ~~bookmark folder~~ being stored either on a client computer system or on the server, the bookmark folder, if stored on the server, being enabled to be accessed by a plurality of users;

AUS920011027US1

comparing the URLs of the bookmarked Web pages with URLs of the Web pages in the categories; and

highlighting all the Web pages in the categories displayed on the Web page that have the same URLs with the bookmarked Web pages.

14.   (Currently amended) A computer implemented method of indicating Web pages on a server that have already been bookmarked on a remote computer system comprising ~~the steps of~~:

using a keyword or a phrase to search Web pages bookmarked in two or more sub-folders;

creating a sub-folder into which all Web pages searched that contain the keyword or phrase are to be stored;

storing bookmarks to all the Web pages that contain the keyword or phrase into the created sub-folder;

accessing a Web site on the server on which Web pages arranged in categories are displayed;

retrieving Uniform Resource locators (URLs) of all the bookmarked Web pages in the created sub-folder ~~a bookmark folder~~, the ~~bookmark folder~~ created sub-folder being stored on the remote computer system and being enabled to be viewed by a plurality of users, however, only bookmarked Web pages in the ~~bookmark folder~~ created sub-folder for which a user has access permission may be accessed by the user;

AUS920011027US1

comparing the URLs of the bookmarked Web pages with URLs of the Web pages in the categories; and

highlighting all the Web pages in the categories displayed on the Web page that have the same URLs with the bookmarked Web pages.

15.   (Currently amended) A computer implemented method of indicating Web pages on a server that have already been bookmarked on a local computer system comprising ~~the steps of~~:

using a keyword or a phrase to search Web pages bookmarked in two or more sub-folders;

creating a sub-folder into which all Web pages searched that contain the keyword or phrase are to be stored;

storing bookmarks to all the Web pages that contain the keyword or phrase into the created sub-folder

accessing a Web site on the server on which Web pages arranged in categories are displayed;

retrieving Uniform Resource locators (URLs) of all the bookmarked Web pages in the created sub-folder ~~a bookmark folder~~, the created sub-folder ~~bookmark folder~~ being stored on the local computer system;

comparing the URLs of the bookmarked Web pages with URLs of the Web pages in the categories; and

AUS920011027US1

highlighting all the Web pages in the categories displayed on the Web site that have the same URLs with the bookmarked Web pages.
